

**The Next Chapter**  
The San Francisco Dance Music Community Together Again  
**FOR THE FUTURE**  
May 13<sup>th</sup> at Café Cocomo

Please join the San Francisco House Music Community in its fourth benefit event for children affected by AIDS in Africa. **FOR THE FUTURE** is bringing together an incredible group of **18 dj's** and over **6 media & promotional sponsors** in a **14-hour** event, to share the music, spread the word, and raise funds for NextAid's environmental children's residence and community center project in a poverty and AIDS stricken town in South Africa. The "mega-benefit" will take on **Sunday, May 13<sup>th</sup> at Café Cocomo**, 650 Indiana Street in San Francisco from noon to 2 am. Cover charges are \$10 b4 2p, \$15 between 2p-12am, and \$10 after 2am. Complete information is posted on here: <http://www.nextaid.org/forthefuture.htm>.

Four and a half years ago, a core group of friends brought 30 artists together to raise funds for a treasured member of the community, Wert Terry, who was tragically lost to cancer. The historic event was called **For the Love**. No one would ever forget this moving day. In his memory, the San Francisco House Music community came together again in 2004 for the kids. NextAid built a performance space in Wert's memory from funds raised at the three **For the Kids** events.

Now in its third year, the event is making an even greater impact on the community it's supporting in South Africa. This event is called **For the Future** and is growing in diversity, musically, demographically and this event will be "green" with recycling, carpooling, and the purchasing of carbon credits to offset the energy utilized to produce the event. Proceeds will continue to go towards NextAid's Pilot project: an ecological children's center in South Africa that will serve as a safe home for 50 children orphaned by AIDS, a multi-purpose center for the greater community, and a model for future projects throughout Africa. Working with a renowned ecological architect and experienced natural builders, NextAid broke ground in July 2005 with an earth-bag building workshop, kicking off the construction of the Dennilton center for Youth with a Vision (YWAV). Now 5 buildings and supporting structures are completed on site including the "Wert Terry Music and Performance Center," outdoor energy-efficient kitchen and seating area, 2 earth-bag offices, composting toilets, and a straw bale children's house.
